About Us

Welcome to the Salisbury Symphony's Education Programs, a treasure trove of music education and inspiration that has been fostering the growth of budding musicians in our community for over half a century.

Through our invaluable In-School Programs, we bring the joy and depth of music directly to classrooms, offered free to the educational system, embodying our belief that every student deserves the chance to explore their musical potential. Our After-School Instruction caters to various age groups and skill levels, promising an enriching learning journey in the world of music.
